The documents listed here are those documents which were compiled in preparation for the 2017 SUN Global Gathering marketplace. Each United Nations agency and institution was given the opportunity to identify publications and other relevant materials for dissemination during the above-mentioned marketplace in an effort to foster intra- and inter- SUN Network knowledge sharing related to scaling up nutrition. The items listed here are not in any way an exhaustive list of the publications, guidance materials and other resources developed by these agencies/institutions. Rather, they are highlights which were considered particularly relevant for the SUN Global Gathering participants.

These efforts were coordinated by the UN Network for SUN Secretariat, as part of its knowledge management and communications functions. The development of the shared link and supporting Table of Contents, facilitates the sharing of these valuable materials in an environmentally sustainable and cost-efficient manner.
UN Network for SUN Document List

UN NETWORK FOR SUN SECRETARIAT
